

Common Module on Security and Defence Policy at the Theresan Military Academy

From 18-22 Oct 2010 the first international CSDP-Module at the Theresan Military Academy within the Frame of the European Initiative on the exchange of young officers inspired by ERASMUS took place.

Participants were Austrian Military Students of the 3rd Semester and German Students from the Army Officer School in Dresden. They had to pass an e-learning programme on CSDP in advance and several tests. Those ones who absolved everything positive received a certificate valid for 1.5 ECTS issued by the acting

Head of Institute, Col(GS) Mag. Wiedner and the Course Director LtCol Dr. Gell. Among the increase of knowledge on CSDP the students were evaluated concerning their competences by a special "competence evaluation team". International and national high ranking

experts on CSDP were the lecturers and could pass excellent knowledge to the students.

The whole Module was evaluated by an expert from Brussels working within the ESDC, Mr. Paile, to find out best practice and lessons learnt.
